Community Circles are based upon reciprocity and the assumption that EVERYONE has both gifts and needs - whether they are labeled or not. The circles adopt the fundamental value of inclusion that 'all means all', no one is excluded from community circles, and instead the circle members work out how to include everyone equally and safely.

Community circles provide a great foundation or starting point from which to explore connections, build relationships, locate resources and share skills. They provide a safe forum in which people can meet and friendships can start, a natural reservoir of people and relationships where people can be invited to offer their time and capacity.

Who should attend?

Anyone who is trying to work out how to make our communities better places for us all to live. This includes Support Providers, Community Activists, Local Area Co-coordinators, Community Health partners, Councilors, Politicians, Community Leaders and individuals.
